

IGL-26

Glass Gas Log Set

Shown with optional reflective glass firebox panels

Transform your fireplace from dull to **dramatic**

The Images Gas Log Set, with its one-of-a-kind reflective glass logs and accent lights, will change any ordinary woodburning fireplace into something spectacular.

Stellar
hearth products™

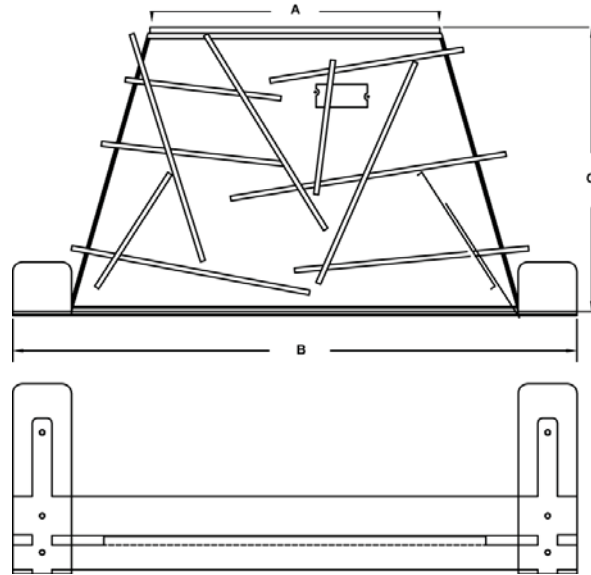

Features –

- 44,000 BTU's of flame
- Fits into most masonry and pre-fabricated woodburning fireplaces
- The ONLY modern gas log set with mirrored ceramic glass panels for “logs”
- Exclusive Moonbeam™ Accent Lights on the log panels, providing year-round ambience whether the appliance is on or off
- Front grate accent lights offer a soft ember light inflection to the front of the hearth
- Optional firebox mirrored panels reflect countless iterations of the flames and lights
- Standard Liquid Mercury glass beads reflect and accentuate the flame

IGL-26

Glass Gas Log Set

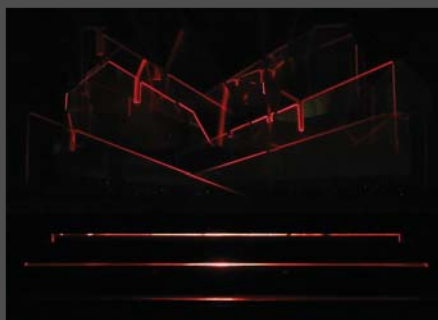

The IGL-26 glass gas “log” set uses reflective glass “logs” and firebox panels, as well as accent lighting on the burner and front grate, to enhance the flames by reflecting the images throughout the firebox. With lighting from below, the edges of the glass pieces illuminate, enhancing the look whether burning or not, offering a stunning look year-round!

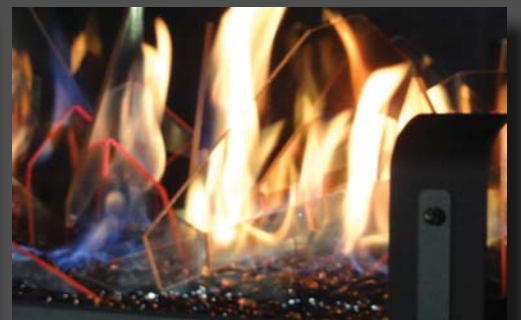

IGL-26 Dimensions		A	B	C
	Height	Back Width	Front Width	Depth
Actual	14-1/2"	14-3/4"	28-13/16"	14-9/16"
Minimum	17"	19"	31"	15"

The standard Images Gas Log set, without optional reflective panels
